The purpose of this letter is to respond to the request for additional information (RAI) identified in Reference 2 above. This RAI addresses Question No. ESP EIS 2.4.2-2 for the Environmental Report (ER), as submitted in Part 3 of the PSEG Site Early Site Permit Application, Revision 2.

Enclosure 1 provides our response for RAI No. Env-05S, Question No. ESP EIS 2.4.2-2.

Enclosure 2 includes the revisions to the ER resulting from our response to RAI No. Env-05S.

Enclosure 3 provides the electronic files requested for docketing in RAI No. Env-05S.

RESPONSE to RAI No. Env-05S

QUESTION No.

ESP EIS 2.4.2-2

Review Section: ESP EIS 2.4.2 - Aquatic Ecology

Response to RAI No. Env-05S, Question ESP EIS 2.4.2-2:

In Reference 2, the NRC staff asked PSEG for information regarding Aquatic Ecology, as described in Subsection 2.4.2 of the Environmental Report. The specific request was:

Env-05S

1) The following references are available in the PSEG reading room and need to be submitted for docketing:

Supporting Information: A detailed and thorough description of the aquatic ecology in the vicinity of the power station site and associated transmission corridors is essential for the evaluation of potential impacts to the aquatic environment that may result from plant construction or operation (ESRP 2.4.2). The NRC staff must conduct an independent review of the data/information provided by the applicant. Therefore, any applicant-supplied data/information used by the NRC staff in making their analyses and conclusions must be placed on the project docket.

PSEG Response to NRC RAI:

Adobe pdf files of the references requested in sub-questions 1) and 2) above are provided in Enclosure 3.

3) The data presented in ER Tables 2.4-12 through 2.4-15 and 2.4-25 were developed as part of the PSEG ESPA sampling program in 2009 and reported in these tables. Therefore, there is no specific reference document for these tables. The tables will be updated as described in Enclosure 2 to provide a clarifying note to that effect.

Associated PSEG Site ESP Application Revisions:

ER Tables 2.4-12 through 2.4-15 and 2.4-25 will be updated as described in Enclosure 2 of this document.
