SUBJECT: CALVERT CLIFFS INDEPENDENT SPENT FUEL STORAGE FACILITY –
WITHDRAWAL OF REQUESTED LICENSING AMENDMENT REQUEST NO. 10
SUBMITTED TO NRC FOR ACCEPTANCE REVIEW (TAC NO. L24608)

Dear Mr. Gellrich:

By letter dated December 8, 2011, Calvert Cliffs Nuclear Power Plant (CCNPP), LLC, submitted license amendment request (LAR) No. 10 to the U.S. Nuclear Regulatory Commission (NRC) for Materials License No. SNM-2505 (LAR 2505-10) for the CCNPP site-specific independent spent fuel storage installation (ISFSI). The amendment, if approved, would authorize the use of the high burnup fuel dry storage canister NUHOMS® 32PHB.

The acceptance review was performed to determine if there is sufficient technical information in scope and depth to allow the NRC staff to complete its detailed technical review. The acceptance review is also intended to identify whether the application has any readily apparent information insufficiencies in its characterization of the regulatory requirements or the licensing basis of the plant.

By letter dated March 26, 2013, you requested to withdraw the application from NRC review. The NRC acknowledges your request to withdraw the application. NRC staff activities on the review have ceased and the associated Technical Assignment Control number has been closed.

If you have any questions, please contact me at (301) 492-3325.

Sincerely,

/RA/
