Nate.

Thanks. I'll provide the requested information in due course.

Roger

Roger, we can support the 24th. The reviewer expects to be able to complete the review in one day, but can't guarantee without the documentation in front of him. He is available both the 24th and 25th. Please let me know if extending to a second day will cause significant issues and we can work to provide a more accurate estimate.

I will need some more details (e.g., full address of office, planned start/finish times) to put a formal audit plan together. I propose an 8:30 start time with a flexible but NLT (1600?) time. Please let me know what hours your team can support.

Thanks,

Nate

Subject: IPEC License Renewal - Availability of Westinghouse for Proprietary Information Review - RVI Program

Nate,

I am following up for Adi Irani on an NRC request to support the subject review - Westinghouse and Entergy can support a meeting in Washington on either the 23rd, the 24th or the 25th of April with a preference for the 24th if possible.

Please let me know if the NRC can support one of these dates. Also please confirm whether this is a one day or a multiple day review.

Thanks,
Roger Waters
