Docket No. 03036931
Control No. 580390

License No. 06-31045-01

Robert C. Davis
President
Schulz Electric Company

SUBJECT: SCHULZ ELECTRIC COMPANY, LICENSE AMENDMENT, CONTROL NO.
580390

Dear Mr. Davis:

This refers to your license amendment request. Enclosed with this letter is the amended license.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

Your application dated April 5, 2013 contained **personally identifiable information** (PII). We redacted the PII. Please note that PII is not needed for our review. In the future, please avoid submitting PII. The NRC issued Regulatory Issue Summary 2007-04, dated March 9, 2007, to alert licensees to PII. This RIS can be found in our Agency-wide Documents Access and Management System (ADAMS) under Accession No. ML063470597. Please take a moment to familiarize yourself with this document. The best practice is to NOT submit PII.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to

develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Thank you for your cooperation.

Sincerely,
