Greetings and Happy New Year!

In an effort to promote transparency and share information, the Waste Confidence Directorate is planning to hold monthly Status Update Teleconferences on the third Wednesday of every month from 1:30 p.m. to 2:30 p.m. EST (10:30 a.m. to 11:30 a.m. PST). The NRC staff will discuss the status of its development efforts related to the Waste Confidence generic environmental impact statement and rule, and provide additional background information (e.g., documents to be released, public meeting schedules) as warranted. Interested parties are invited to participate and ask questions; however, *please note that discussion in this forum will not be considered as formal comments and will not be considered in the EIS development.*

The first public teleconference will be held on Wednesday, January 16, and will provide an overview of the recently completed scoping period and next steps in the Waste Confidence environmental review. With the exception of the agenda, which is included as the last page in the meeting notice (linked below), there are no slides or handouts associated with this teleconference.
