Sugar Land, Texas 77478

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE

Thermo MeasureTech has informed the Nuclear Regulatory Commission (NRC) of its decision to terminate NRC radioactive materials license number 42-01485-04. In support of such request, Thermo MeasureTech has submitted NRC Form 314 dated March 19, 2013. The license termination request stated that all activities authorized by this license have ceased, and all radioactive material procured and/or possessed by the licensee under this license have been transferred to Thermo Process Instruments LP, a subsidiary of Thermo Fisher Scientific, Inc, holder of an active State of Texas radioactive materials license number L03524. Based on the documentation submitted and a review of Thermo MeasureTech docket file, the staff concluded that all licensable radioactive material have been transferred to a valid State of Texas radioactive materials licensee. No further remediation or action with respect to NRC regulated material is required.

Please find enclosed amendment number 15 to license number 42-01485-04 authorizing your license termination. An environmental assessment for this action is not required since this licensing action is categorically excluded under 10 CFR 51.22(c)(14)(iv).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at 817-200-1189 if you have questions or require clarification on any of the information stated above.

Sincerely,

/RA/

Roberto J. Torres, Senior Health Physicist
Nuclear Materials Safety Branch B
