Pam Henderson Deputy Director
Division Materials Safety and State Agreements
Office of Federal and State Materials and
Environmental Management Programs
U.S. Nuclear Regulatory Commission
T8-E24
Washington, D.C. 20555-0001

Dear Ms. Henderson:

RE: RATS ID 2008-1, Occupational Dose Records, Labeling Containers, and the Total Effective Dose Equivalent

Attached to this e-mail, is our proposed rule revisions to Washington's Radiological Health Rules to adopt RATS ID 2008-1, Occupational Dose Records, Labeling Containers, and the Total Effective Dose Equivalent. This rulemaking changes three of our chapters:

- Chapter 246-220 WAC, Radiation protection – general provisions;
- Chapter 246-221 WAC, Radiation protection standards; and
- Chapter 246-222 WAC, Radiation protection – worker rights.

To give NRC time to review the proposed rule revisions, we are sending them to you early. We anticipate sending the proposed revisions to our stakeholders in June 2013 for public comment. We request NRC's comments by June 22, 2013.

For language or punctuation we are deleting, it has a solid line through it and new language or punctuation is underlined.

We believe these proposed rule revisions satisfies the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Programs (FSME) Procedure SA-200.

If you have any questions, please contact Michelle Austin, Rules Coordinator, at (360) 236-3250 or by e-mail at michelle.austin@doh.wa.gov

Sincerely,

Leo Wainhouse, Acting Director
Office of Radiation Protection

cc: Michelle Austin, Rules Coordinator
