**Subject:** Regarding TAC J00626 for review of licensing issues associated with Pathfinder Shirley Basin reporting requirements  
**Date:** Thursday, May 02, 2013 1:25:12 PM  
**Importance:** High

---

The TAC was opened at the end of July 2010 to review periodical reports as required in the license. It was opened as more of a generic TAC and although no documentation has been issued, we have been advised to close the TAC as it has not been used in several years and is currently mapped under an incorrect Planned Accomplishment number. If a new request comes in, we will open a new TAC.
