April 25, 2013  
RC-13-0057

U. S. Nuclear Regulatory Commission  
Document Control Desk  
Washington, DC 20555

Dear Sir / Madam:

Subject: VIRGIL C. SUMMER NUCLEAR STATION UNIT 1  
DOCKET NO. 50-395  
OPERATING LICENSE NO. NPF-12  
CORRECTION TO TITLE OF RESPONSE LETTER TO NRC CONCERNING  
BULLETIN 2012-01, "DESIGN VULNERABILITY IN ELECTRIC POWER  
SYSTEM," DATED OCTOBER 24, 2012

Reference: Letter from Thomas D. Gatlin, SCE&G, dated October 24, 2012, "South Carolina  
Electric & Gas Company's Request For Extension of the 90-Day Response to  
Bulletin 2012-01, Design Vulnerability in Electric Power System" (ADAMS  
Accession No. ML12299A470)

On October 24, 2012, South Carolina Electric and Gas Company submitted a response letter to  
the Nuclear Regulatory Commission concerning Bulletin 2012-01.

Due to an inadvertent error, the "subject" of the letter stated a request for an extension of the  
90-day response to Bulletin 2012-01. The corrected subject is: "South Carolina Electric & Gas  
90-Day Response to Bulletin 2012-01, "Design Vulnerability in Electric Power System." No  
other changes are needed.

This oversight has been entered in the station's corrective action program.

I apologize for any inconvenience this may have caused.

Very truly yours,

Thomas D. Gatlin
