Dear Pamela Henderson, Deputy Director:

Enclosed is a copy of the final revisions to the New Mexico Radiation Protection Rules contained in the following parts: 20.3.15 NMAC "LICENSES AND RADIATION SAFETY REQUIREMENTS FOR IRRADIATORS". We request NRC's comments by June 3, 2013.

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in FSME Procedure SA-200.

If you have any questions, please feel free to contact Santiago Rodriguez, Program Manager of Radioactive Material Licensing and Inspection Program at 505-476-8604, santiago.rodriguez1@state.nm.us.

Sincerely,

Michael Ortiz
