MEMORANDUM
Appointment as Temporary Radiation Safety Officer

TO: Malek Daneshvarnezhad, MS,DABR DATE: April 17, 2013
Radiation Safety Officer

FROM: Jeffrey M. Fried, FACHE SUBJECT: Delegation of Authority
Chief Executive Officer

You, Malek Daneshvarnezhad, have been appointed Radiation Safety Officer for the period indicated below and are responsible for ensuring the safe use of radiation.

Time Period: May 15, 2013 through May 22, 2013 (8 days)
June 10, 2013 through June 22, 2013 (12 days)

You are responsible for managing the radiation safety program; identifying radiation safety problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; stopping unsafe activities, and ensuring compliance with regulations.

You are hereby delegated the authority necessary to meet those responsibilities, including prohibiting the use of radioactive material by employees who do not meet the necessary requirements and shutting down operations where justified by radiation safety. You are required to notify management of situations where staff are not cooperating and not addressing radiation safety issues.

In addition, you are free to raise issues with the Nuclear Regulatory Commission at any time.

Jeffrey M. Fried, FACHE
President and Chief Executive Officer

I accept the above responsibilities.

Malek Daneshvarnezhad, MS,DABR

35.24(b) A licensee's management shall appoint a Radiation Safety Officer, who agrees, in writing, to be responsible for implementing the radiation protection program. The licensee, through the Radiation Safety Officer, shall ensure that radiation safety activities are being performed in accordance with licensee-approved procedures and regulatory requirements.[Delegation/Agreement attached]

35.24(e) A licensee shall establish the authority, duties, and responsibilities of the Radiation Safety Officer in writing. [Attached]

35.24(g) A licensee shall provide the Radiation Safety Officer sufficient authority, organizational freedom, time, resources, and management prerogative, to—[Delegation/Agreement attached]

- (1) Identify radiation safety problems;
- (2) Initiate, recommend, or provide corrective actions;
- (3) Stop unsafe operations; and,
- (4) Verify implementation of corrective actions.

35.24(h) A licensee shall retain a record of actions taken under paragraphs (b), and (e) of this section in accordance with § 35.2024.

In accordance with Subpart B--General Administrative Requirements

§ 35.26 Radiation protection program changes

- (a) A licensee may revise its radiation protection program without Commission approval if—
- (1) The revision does not require a license amendment under § 35.13;
 - (2) The revision is in compliance with the regulations and the license ;
 - (3) The revision has been reviewed and approved by the Radiation Safety Officer and licensee management; and
 - (4) The affected individuals are instructed on the revised program before the changes are implemented.

- (b) A licensee shall retain a record of each change in accordance with § 35.2026.
