LISLE, ILLINOIS 60532-4352

APR 24 2013

Robert Kochan, Ph.D.  
Radiation Safety Officer  
Covance Clinical Research Unit, Inc.  
Global Clinical Pharmacology - Covance Evansville  
617 Oakley Street  
Evansville, IN 47710

Dear Dr. Kochan:

Subitem 9 of your license is being revised to use the correct verbiage in accordance with NRC policy and procedures. A corrected copy of your license is enclosed. We apologize for any inconvenience this oversight may have caused you.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Sincerely,

Toye L. Simmons  
Materials Licensing Branch
