The subject report (Attachment A) includes a summary of the quantities of radioactive liquid and gaseous effluents, and solid waste released from the CR-3 site during 2012. The material provided is consistent with the objectives outlined in the Off-Site Dose Calculation Manual (ODCM) and the Process Control Program (PCP), and is in conformance with 10 CFR 50, Appendix I, Section IV.B.1.

The ODCM was revised twice during 2012 and both revisions are included in this submittal as Attachment B (Revision 33) and Attachment C (Revision 34). The PCP was not revised in 2012.

No new regulatory commitments are made in this letter.
