Bethesda, MD 20817-1818

SUBJECT: EXTENSION OF ACCREDITATION OF CURTISS-WRIGHT CLASSIFIED
SERVICES NETWORK SYSTEM SECURITY PLAN CW-ADP-1, REVISION 2 -
TECHNICAL ASSIGNMENT CONTROL NUMBER L34242

Dear Mr. Miner:

I am responding to your letter dated May 2, 2013 (ACM 13-0005), requesting the U.S. Nuclear Regulatory Commission (NRC) to grant Curtiss-Wright Electro-Mechanical Corporation (CW) a 90-day extension of the accreditation of Classified Services Network System Security Plan CW-ADP-1, Revision 2, dated March 2010.

The NRC staff, in coordination with staff from the U.S. Department of Energy, Nuclear Energy Oak Ridge Site Office, has completed its review of your request. The NRC staff has determined that your request for a 90-day extension of the existing accreditation of the network described by CW's Classified Services Network System Security Plan CW-ADP-01, Revision 2, dated March 2010, is acceptable. As such, the accreditation of the network addressed in CW-ADP-01 is extended until August 6, 2013.

As you are aware, these networks are authorized to operate for a specified period of time and have to be reauthorized prior to that period expiring. This requires submitting the network plan with sufficient time for the review to be completed prior to the authorization period expiring. That did not happen in this instance and you had to request an extension to the current authorization to maintain usage of the network. In the future, these requests must be submitted with sufficient time before the expiration date or, otherwise, may not be granted without an appropriate justification for its approval.

This action closes efforts under Technical Assignment Control Number L34242.

In accordance with Title 10 of the *Code of Federal Regulations* 2.390, "Public Inspections, Exemptions, Requests for Withholding," of NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the publicly available records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (The Public Electronic Reading Room).

If you have any questions regarding this matter, please contact Mr. Osiris Siurano-Perez at (301) 492-3117, or by e-mail at osiris.siurano-perez@nrc.gov.

Sincerely,

/RA/
