Subject: RE: NRC Public Meeting on CER - Questions

Dear Mr. Cronin,

Thank you for participating in the public meeting on the Cumulative Effects of Regulation; I'm sorry that you were unable to ask your questions during the meeting.

First, the NRC views the CER process as applying to all licensees, including non-power reactor licenses. At this time, the NRC is not planning to hold a public meeting that will focus specifically on the CER impact on non-power reactor facilities(NPRs). However, the NRC encourages NPRs to participate in all future meetings on CER, and is certainly interested in obtaining feedback and understanding the CER concern at NPRs. Along those lines, the NRC staff would encourage NPRs to participate in either of the case studies discussed at the public meeting, if there is interest.

To answer your second question, the division director and deputy division director that oversee the non-power reactor branches were present at the public meeting.

In a separate e-mail, you asked about the regulations.gov docket that will be established for the CER effort. Once that docket is available, I will send the docket number to the distribution list which contains all attendees at today's meeting. The docket number will also be provided in the public meeting summary.

Thank you, again, for your participation.

Tara Inverso

Subject: RE: NRC Public Meeting on CER - Questions

Hello again Tara,

Thank you for organizing and presenting today's CER meeting.

For some reason I couldn't get my phone unmuted during the meeting so I was left with a few questions that I hope you can answer for me.

Adrian Heymer of NEI mentioned they were going to focus their CER efforts initially on power reactors and then move to Part 70 licensees at some later date. Someone late in the meeting mentioned they were planning a 6/10 NRC public meeting specifically to deal with CER for Fuel Cycle Facilities. Is there any NRC effort currently to address CER for non-power reactor facilities (research and test reactors)?

Were there any NRC representatives from the non-power reactor branches present at today's meeting?

Thank again.

Regards,

--

Subject: RE: NRC Public Meeting on CER - Attendee

Hi Tara,

Just sending the requested email to let you know I was in attendance via webcast today.

If you could provide me with the regulations.gov docket or address or preferred way of providing my input on this topic it would be greatly appreciated.

Thank you,

--

Subject: RE: NRC Public Meeting on 4/24 1300 Eastern - Access Request

Dan,

Thank you for your interest in the April 24th public meeting on CER.

The phone line for the call is: 888-705-9851; passcode: 33378.

The registration link for the webinar is pasted below. Please let me know if you have any questions.

Thanks!
Tara

Public Meeting to Discuss Cumulative Effects

of Regulation Process Changes

Join us for a Webinar on April 24

REGISTER NOW

The purpose of this meeting is to: 1) Inform external stakeholders of the recent Commission direction on the Cumulative Effects of Regulation; 2) Describe the NRC staff's current thoughts on ways to address the direction; and 3) To obtain feedback that will inform the NRC's efforts to address the direction.

Title: *Public Meeting to Discuss Cumulative Effects of Regulation Process Changes*

Date: Wednesday, April 24, 2013

Time: 1:00 PM - 5:00 PM EDT

After registering you will receive a confirmation email containing information about joining the Webinar.
