## General Comment

I live on New Haven RD. and the increased traffic that the mining is going to generate is going to greatly impact my home and health. The dust from this road is causing us health problems now, and with the extra traffic, not to mention truck traffic it is going to be unbearable. Not only this but the safety issue is going to go up, you can't see now when following or being passed by vehicles. If the road is going to be used by this much traffic it is going to have to be either paved, or have mag-chloride treatments through out the year. I will not put up with the dust any longer !!!!!

DEQ will be contacted if it gets any worse, along with any other agency's that will help.

Thank you  
Scott Waugh
