

May 14, 2013

MEMORANDUM TO: Anthony J. Mendiola, Chief
Licensing Processes Branch
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation

FROM: Sheldon D. Stuchell, Senior Project Manager */RA/*
Licensing Processes Branch
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation

SUBJECT: FORTHCOMING **CLOSED** MEETING WITH INDUSTRY TO DISCUSS
PROPRIETARY INFORMATION CONCERNING PRESSURIZED
WATER REACTOR (PWR) VESSEL INTERNAL INSPECTIONS

DATE & TIME: Wednesday, May 22, 2013
9:00 a.m. - 4:30 p.m.

LOCATION: Westinghouse Electric Company
Twinbrook Building
12300 Twinbrook Parkway
Rockville, MD 20852

PURPOSE: For Westinghouse to present proprietary data to the NRC staff and for all attendees to participate in the technical discussion. The data is intended to show broad applicability of the Material Reliability Program (MRP)-227-A, "Pressurized Water Reactor Internals Inspection and Evaluation Guidelines," report. In addition, Westinghouse will provide a summary and review the details of their draft Technical Basis Document. The information should establish how design variations within the operating fleet would affect the three key variables that feed into the screening process for aging degradation (specifically stress, neutron fluence, and temperature) and how these variations within the designs would have no significant affect on the aging management recommendations contained in MRP-227-A. The information should assist the NRC staff in resolution of MRP-227-A "Applicant/Licensee Action Item 1" related to plant-specific applicability, present proprietary details of the related guidance to be provided by EPRI/Westinghouse to licensees, and proprietary details of any additional issues discovered during EPRI/Westinghouse investigation of this issue.

MEETING CONTACT: Sheldon Stuchell, NRR/DPR/PLPB

AGENDA

**CLOSED MEETING BETWEEN THE U.S. NUCLEAR REGULATORY COMMISSION
AND INDUSTRY REPRESENTATIVES TO DISCUSS PWR INTERNALS INSPECTIONS**

MAY 22, 2013

Wednesday, May 22, 2013

9:00 a.m.	Introduction, Welcome, and Safety Brief	Westinghouse
9:15 a.m.	Technical Basis Document – Overview	EPRI/Westinghouse
10:30 a.m.	Guidance to Licensees for Action Item 1 Response – Overview	EPRI/Westinghouse
11:45 a.m.	LUNCH	
12:45 p.m.	Other Issues	EPRI/Westinghouse
1:45 p.m.	Proprietary Information related to Action Item 7	EPRI/Westinghouse
2:30 p.m.	Industry representatives leave the room for NRC staff to discuss and decide what additional information is required to close issues.	NRC staff
3:00 p.m.	Discussion	All
4:00 p.m.	Summary & Action Items	All
4:25 p.m.	ADJOURN	

ENCLOSURE
