SUBJECT

C/N 318365

SUMMARY

ACTION REQUIRED

Since Mr. Regits is on vacation I contacted Ms. Schnees to advise her that I would be voiding Cardinal Health's application for a new license for accelerator produced material per a conversation that I had with Mr. Regits earlier this month.

It is our understanding that Cardinal Health will be submitting a revised application for the accelerator produced material in parallel with an application for an M&D license in accordance with NUREG-1556, volume 12. According to Mr. Regits, Cardinal Health would like to apply for the M&D per volume 12 in lieu of applying for a nuclear pharmacy license per volume 13.

I also told Ms. Schnees that Cardinal Health needs to review 32.72 and specifically address 32.72(a)2 and 32.72(a)(4) (if applicable in reference to the requirements for having a nuclear pharmacist listed on the license).

I also told Ms. Schnees that they need to address the deficiencies described in letter dated 10/20/09 with regard to their initial application for a new license for accelerator-produced material.
