In the Matter of
ENTERGY NUCLEAR OPERATIONS, INC.
(Indian Point Nuclear Generating Unit Nos. 2 and 3)
Docket Nos. 50-247-LR/286-LR

Dear Administrative Judges:

The NRC Staff ("Staff") wishes to inform the Atomic Safety and Licensing Board ("Board") and parties that it has completed its Supplement (Volume 4) to Supplement 38 to the "Generic Environmental Impact Statement for License Renewal of Nuclear Plants," NUREG-1437 (Volumes 1, 2 and 3), the site-specific Final Supplemental Environmental Impact Statement ("FSEIS") for license renewal of Indian Point Nuclear Generating Unit Nos. 2 and 3.

The Staff has transmitted the FSEIS Supplement to the NRC Office of Administration for publication, but has been informed that due to a large number of pending publication requests, the FSEIS Supplement will not be put in final form and published until June 2013. The Staff will transmit a copy of the FSEIS Supplement to the Board and parties upon its receipt from the Office of Administration, at which time the Supplement will also be made available in the NRC's Agencywide Documents Access & Management System ("ADAMS").

Sincerely,

A handwritten signature in red ink, reading "Sherwin E. Turk".

Sherwin E. Turk
Counsel for NRC Staff
