Campbell, California 95008

SUBJECT: ACCEPTANCE REVIEW OF THE RENEWAL APPLICATION FOR CERTIFICATE
OF COMPLIANCE NO. 1007, VSC-24 – ACCEPTED FOR REVIEW
(TAC NO. L24694)

Dear Mr. Sisley:

By letter dated October 12, 2012 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML12290A139), as supplemented February 14, 2013 (ML13050A320), EnergySolutions submitted an application for renewal of Certificate of Compliance (CoC) No. 1007 for the ventilated dry storage cask (VSC-24) system. EnergySolutions requests to extend the initial CoC and its amendments for an additional forty (40) years.

Staff performed an acceptance review of the VSC-24 renewal application to determine if the application contains sufficient technical information in scope and depth to allow the staff to complete the detailed technical review.

This letter acknowledges acceptance of the VSC-24 renewal application. The application appears to contain the information needed for our technical review. We have established a schedule for the review. The schedule allows staff to issue a request for additional information (RAI) by July 31, 2013, and the draft certificate of compliance/safety evaluation report (CoC/SER) in February 2014, based on EnergySolutions responding to the RAIs by November 4, 2013. If there are no RAIs issued, the Division of Spent Fuel Storage and Transportation will submit the draft CoC/SER for direct final rulemaking in August 2013. No additional changes to the application should be submitted except for changes resulting from your response to an RAI.

If you have any questions regarding this matter, please contact me at (301) 287-0829.

Sincerely,

/RA/

Pamela Longmire, Ph.D.
Division of Spent Fuel Storage and Transportation
Office of Nuclear Material Safety
and Safeguards

Docket No.: 72-1007

TAC No.: L24694
