In Reference 1, the STP Nuclear Operating Company (STPNOC), acting on behalf of NRG South Texas LP (NRG South Texas), provided notice regarding a proposed merger involving NRG South Texas's ultimate parent company, NRG Energy, Inc. (NRG Energy). NRG South Texas is an owner licensee for 44% of South Texas Project, Units 1 and 2 (STP 1&2). STPNOC is the licensed operator of STP 1&2.

STPNOC requested that the NRC staff review the proposed transaction described in Reference 1 and make a threshold determination that it would not involve any direct or indirect transfer of control of NRG South Texas LP or its licenses for STP 1&2 that would require approval pursuant to 10 CFR 50.80. In Reference 2, the NRC staff confirmed that the merger described in Reference 1 did not involve a direct or indirect transfer of control of the licenses for STP 1&2, and, therefore, did not require the NRC's approval under Section 184 of the Atomic Energy Act of 1954, as amended, and 10 CFR 50.80. The merger was completed on December 14, 2012, and Notice regarding the merger was provided in Reference 3.

NRG Energy has identified that the Organization Charts included in Reference 1 incorrectly identified an NRG Energy subsidiary that holds non-voting stock in the corporate chain of ownership for NRG Energy's interests in STP 1&2. This company was correctly identified in

ADD  
NRG

Reference 4 at the time it acquired its non-voting interests in 2006, and it is known as "NRG Generation Holdings Inc." not "NRG Texas Holdings LLC."

NRG Generation Holdings Inc. has no direct or indirect voting interest in NRG South Texas, and therefore, it should be disregarded in evaluating the direct or indirect control of licenses held by NRG South Texas. As such, its corrected name and non-voting interests are immaterial to NRC's conclusions in Reference 2. Nevertheless, the enclosed Organization Charts are provided to correct the Organization Charts provided in Reference 1.

This letter contains no NRC commitments.
