Subject: Land access

Folks:

We have received final agreement by the three private landowners for access to their properties for next week's TCP surveys. They have requested that we work around the following caveats:

- Randall Otwell: Wants us to complete his property on Monday and Tuesday because he will be moving cattle next week and does not want any distractions for the cattle or hazards to the surveyors due to that.
- TJ Wesley: Complete surveys in a 3 day period; our choice which days. I believe that one of the sites identified by SHPO as requiring tribal consultation is on TJ's place.
- Tony Swanda: Complete surveys in a 3 day period; our choice which days. I believe that one of the sites identified by SHPO as requiring tribal consultation is on Tony's place.

There are of course no limitations on access to the Strata and State Land areas so we should have no problem working around these limitations. The third site requiring tribal consultation is on the State surface.

Ben, we have prepared packages for each tribe with administrative paperwork and HASPs. Would you make sure to bring 6 maps for inclusion?

Mike
