OK, that helps. I'll see what we can do to get those to you.

Mike

Hi Mike,

Yes, I need to get the polygon files for all the CR sites recorded by Ferguson. I will compare those with new finds to conduct a boundary reassessment for those sites where new items were found. Also I need the Permit Boundary polygon so that it will be projected in our new GIS maps showing revised site boundaries and new Tribal sites. It will also allow me to consider whether any on the tribal sites are outside the permit area.  
Thanks very much!

If I knew exactly what he is looking for I could. (I'm not a GIS guy). Dave, are you referring to the GIS information from the previous arch survey?

Mike

Mike,

Would it be possible for you to provide the GIS information that Dave is requesting below?

Thank you,

Hi Johari,

Our mailing address is provided below. I am sorting through photos and getting a photo log together and transcribing field notes this week. Will get those up on the FTP later this week. I am also downloading Wyoming site form information to begin preparing site forms. I will need to contact Mike Griffin to obtain the previous site polygons and project boundary information from their GIS data to incorporate out new data into project maps. Need to do this soon because my GIS person will be gone for a week leaving mid-week. Is that OK? I am playing catch up with several projects this week but plan to have the site forms completed by early next week. Any news on the next field project? I will make travel plans as necessary once we have things buttoned down. Hope all is well.
