ORGANIZATION California Energy Commission				
SUBJECT Discuss California Energy Commission's involvement in NRC staff's environmental assessment related to the license amendment request for the Humboldt Bay ISFSI				
SUMMARY Kristina Banovac, NMSS/SFST/LB contacted the California Energy Commission (CEC) to notify them of the staff's draft environmental assessment related to Pacific Gas and Electric Company's (PG&E's) request for amendment to the Humboldt Bay Independent Spent Fuel Storage Installation (ISFSI) license. She was placed into contact with Joan Walter at the CEC. The purpose of the call was to: (1) notify the CEC that NRC had drafted an environmental assessment (EA) of PG&E's license amendment request for the Humboldt Bay ISFSI, to allow storage of greater than Class C process waste in the Humboldt Bay ISFSI; (2) explain the proposed licensing action and summarize the environmental impacts; and (3) determine whether the State official would like to review the draft EA. Ms. Walter noted that the State would like the opportunity to review the draft EA. Ms. Walter noted that the draft EA could be provided to her via e-mail (to the above e-mail address). Ms. Banovac noted that the draft EA is undergoing internal review and is expected to be provided to the CEC in early June 2013.				
Continue on Page 2				
ACTION REQUIRED NRC to provide the draft EA to CEC representative, for review and comment.
