**Subject:** FW: Ops Plan - Title I and II Site TACs Planning Activity Codes  
**Date:** Thursday, May 23, 2013 1:36:21 PM

---

Hi Sarah,

Nick has identified quite a few more TACs pertaining to the issue below. We are going to close these TACs and re-open them under our new Planned Accomplishment numbers. Please put this email into ADAMS so that I can use the number as the closing ML for each of these.

Thank you,

Julie

Julie,

It looks like I have direction at least for these TACs (some other TACs are still TBD). Please let me know what the process is and how I can assist in getting these TACs reassigned to the correct PA codes.

Thank you,

Leah

Okay. I will take this as a go-ahead to work with Julie to close out the TACs and reopen them under the Decommissioning Planning Activity Code.

Do you think that any time corrections for FY 2012 are necessary?

I thought all UMRCA Title I and II remediation were moved from UR licensing budget to

decommissioning budget at least a couple of years ago. It appears that TACs would need to be coded correctly and line-up with the budget formulation.
