Subject: Request for additional information concerning the NIH license renewal
Date: Friday, May 31, 2013 2:05:00 PM

License No.: 19-00296-10
Docket No.: 030-01786
Control No.: 577840

***** PLEASE CONFIRM RECEIPT OF THIS E-MAIL *****

Dear Ms. Newman,

This is in reference to your renewal application dated June 28, 2012. With regards to your financial assurance maintained with the NRC, please note that the following documents currently provide financial assurance:

Certification of Financial Assurance dated April 10, 2012 [ML12115A113]
Statement of Intent dated April 10, 2012, with attachment [ML12115A113]
Decommissioning Funding Plan received April 29, 2011 [ML111220064] with revisions dated March 24, 2012 [ML12115A113]

Since submission of these documents, changes have occurred to your possession limits, including the addition of long-lived isotopes. Based on these changes, please submit revised financial assurance documents to include all radionuclides authorized by this license with half-lives greater than 120 days.

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 577840. If you have any technical questions regarding this deficiency letter, please contact me via e-mail.

In order to continue our review of your renewal application, we request that you submit your revised financial assurance documents as soon as possible. However, if these documents are not received prior to issuance of the renewed license, we will open a separate financial assurance amendment to deal with this matter.

Tara L. Weidner
Senior Health Physicist
U.S. Nuclear Regulatory Commission
