Subject: Withdrawal of Topical Report on the Quality Assurance Program for Holtec International's 10 CFR Part 50 and Part 52 Projects

References: [1] Letter 2108005 from Holtec (Mark Soler) to NRC dated May 8, 2013

Dear Madam/Sir,

Holtec submitted a Topical Report on the Quality Assurance Program for Holtec International's 10 CFR Part 50 and Part 52 Projects on May 8, 2013 [1]. On a teleconference on May 30, 2013 between the NRC and Holtec, NRC informed Holtec that the topical report could not be reviewed in its current state since the report included sections on manufacturing and construction which would not apply to a design certification licensing application for SMR-160. Based on the above, Holtec is withdrawing its submittal of the above referenced topical report. The topical report shall be revised to only include QA Program information pertaining to the design and licensing of the SMR-160 nuclear power plant. The report shall be revised and re-submitted by June 28, 2013.

Any questions concerning this report may be directed to Mark Soler at 856-797-0900 extension 3619 (email: [m.soler@holtec.com](mailto:m.soler@holtec.com)) or Thomas Marcille at extension 3850 (email: [t.marcille@holtec.com](mailto:t.marcille@holtec.com)).

Holtec looks forward to working with the NRC staff on this crucial part of our design effort and will be happy to meet with the NRC staff to discuss the report as necessary.

A handwritten signature in black ink, appearing to read "T. Marcille", is written over the typed name.
