## Attachment 4, Question &amp; Comment During Initial Written Exams (Audit or NRC)

Applicant Name:	ROZ		
Applicant Level:	RO: <input checked="" type="checkbox"/>	SRO: <input type="checkbox"/>	
Applicant Level:	RO: <input type="checkbox"/>	SRO: <input type="checkbox"/>	
RO Question #:	40	SRO Question #:	N/A
<p>Question and Comment:</p> <p>(Points to bullet "Auto SI has been accompanied by loss of offsite power")          "Do I assume the conditions, or after operator actions have occurred?"</p> <p>ANS Initially I responded with "assume the conditions in the stem", but I then asked him to repeat/reword his question and realized he was asking if the Q was later on in time (during the RECIRC phase) and <u>not</u> at time 0, when SI occurred. "Assume you've worked through the appropriate procedures to get to RECIRC phase."</p>			
<b>Response:</b>
