Can we send to plants we don't have a submittal from?

All,

Dan and I came up with this idea—

Let us send RAI-1 and RAI-2 (related to Action Item 1 and 2 respectively, of the staff's SE for the MRP-227) to all the Category A plants (per RIS) next week. This may save us some of our review time.

Category A-plants—Point Beach, Ginna, Robinson, North Anna, Indian Point (may not be necessary), Palsades.
