Greg,

I'm excited to hear about the journal article! I will try and review it early this week now that I am back from vacation.

Also, I am attending a phased array workshop next week hosted by Curtiss Wright – LMT that I would like to use the CRDM presentation that I presented at the 9th Annual EPRI NDE conference as discussion points at the workshop. Do you have any objections?

Thanks,
Tony

Greg,

Here are my corrections and suggestions. The article looks pretty good. Please keep us informed as to how it goes.

I submitted the NUREG to our document system. We should have it back to you next week as Brady planned.
