Sounds like the best path forward at this point. Could you please set up a public meeting that meets folks schedules? My apologies to you and the PNNL staff.

I'm inclined to cancel the meeting. There is too much discussion on this already. I will pose to EPRI to make a public meeting sometime in the near future. Please let me know if you agree.

Greg

Subject: FW: discussion of NA nozzle 63

When: Tuesday, April 24, 2012 1:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).

Where:

Based upon the NRC request to exclude utilities. I suggest the call be cancelled!

If EPRI is going to discuss something that may impact licensees or MRP projects with the NRC, then utilities should also be involved in that discussion. It is important that licensees position on issues gets passed on to the NRC. With many head examinations coming up within the next 18 months, licensees have a vested interest in what is discussed as well as the potential effect on the MRP Inspection TAC head qualification program.

Dan

Required: Oberson, Greg; Nowakowski, Dan; rachel.doss@duke-energy.com; Wells, Tim G.; Rassler, Brian; Spanner, Jack; Grizzi, Robert; Collins, Jay

Optional: Lara, Pedro; Swain, Ronald; Kevin J Hacker

Subject: discussion of NA nozzle 63

When: Tuesday, April 24, 2012 1:00 PM-3:00 PM.

Where:

All,

My sincere apologies but NRC decided that the meeting participants should be limited to EPRI employees, and not utility employees at this time. We could have the option to follow up with a public meeting following the publication of the NUREG/CR report this summer. I appreciate your understanding and look forward to further dialogue in the future. Thanks.
