

# **Byron Station, Units 1 and 2 License Renewal Process and Environmental Scoping Meeting**

# Purpose of Today's Meeting

- Provide overview of license renewal review process
  - Safety review
  - Environmental review
  
- Receive public input on environmental review
  - Describe how to submit comments
  - Accept comments today

# NRC Regulatory Oversight

- NRC's Governing Statutes
  - Atomic Energy Act
  - National Environmental Policy Act (NEPA)
- NRC's Mission
  - Protect Public Health and Safety
  - Promote Common Defense and Security
  - Protect Environment

# Byron Station License Renewal

- Byron Station, Units 1 and 2
  - Unit 1, License expiration date 10/31/2024
  - Unit 2, License expiration date 11/06/2026
- Renewal application dated 5/29/2013

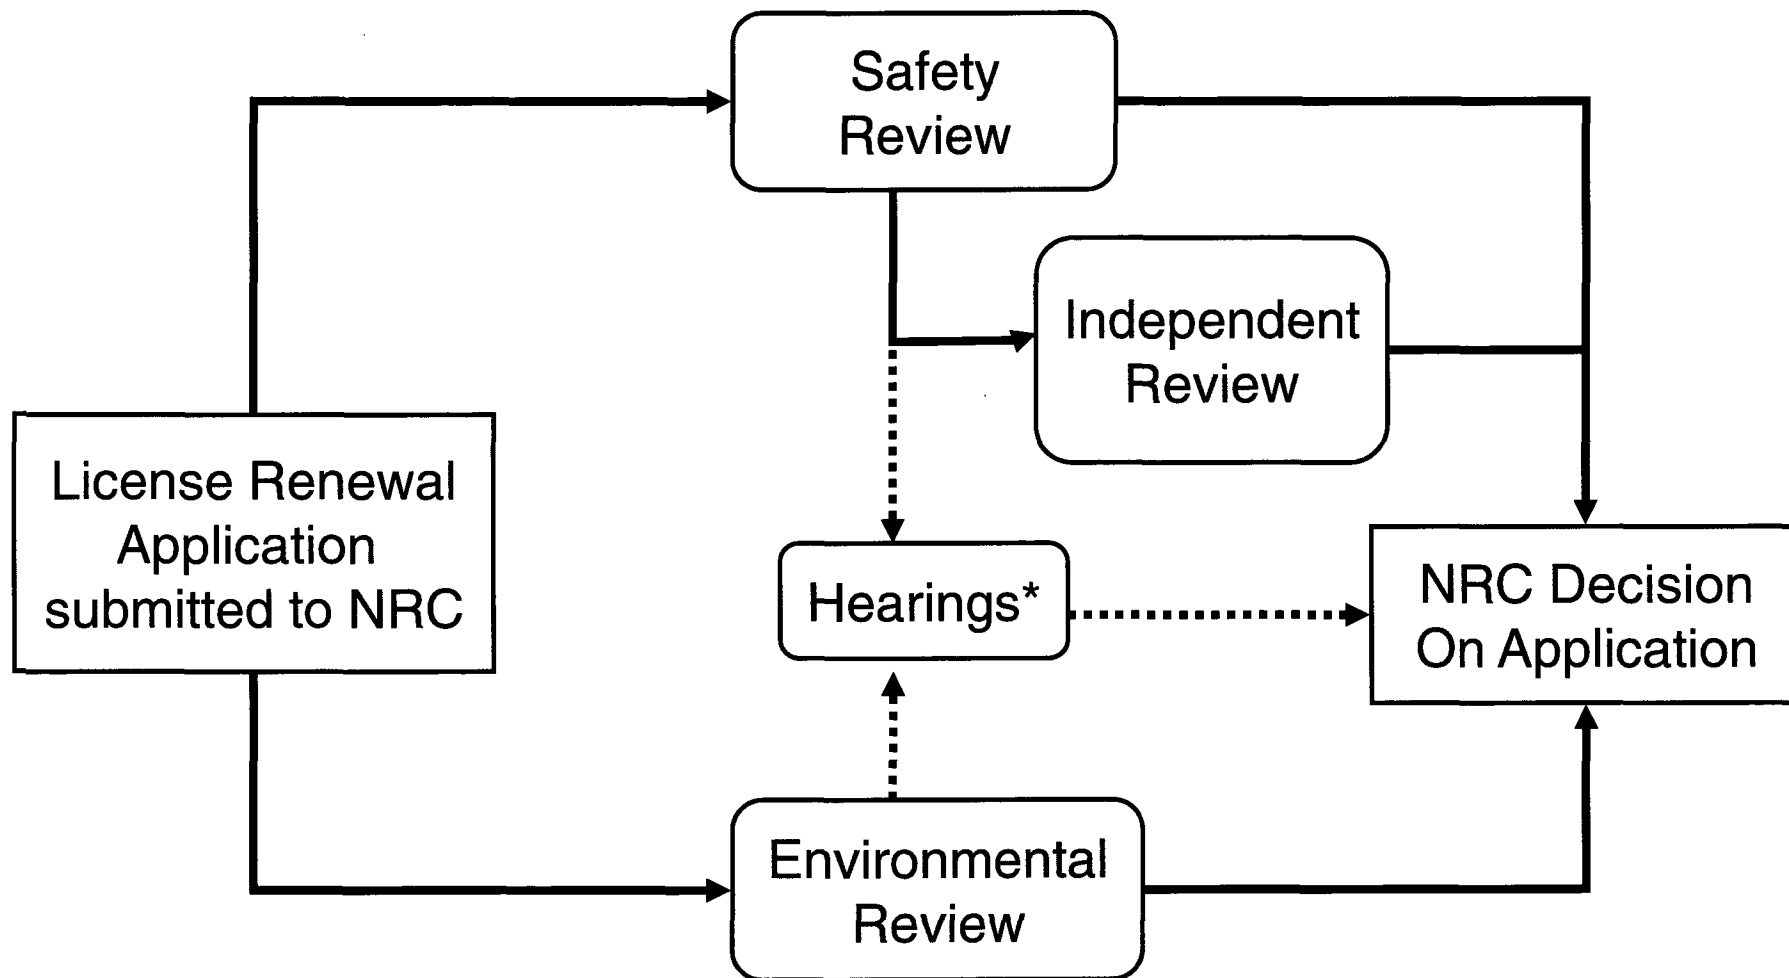

# Contents of Application

- General information about the plant owner or operator
- Technical information about plant structures and components and how the applicant proposes to manage plant aging
- Environmental Report

# License Renewal Process

\* If a Request for Hearing is Granted

# License Renewal Review Overview

## ➤ Safety Review

- Focuses on the aging effects of components and structures important to plant safety
- Staff review is to determine whether aging effects will be effectively managed
- Considers generic and site specific operating experience related to the effects of aging

## ➤ Environmental Review

- Considers, analyzes, and discloses environmental impacts of continued plant operation and alternatives to license renewal
- Staff review is to determine if the environmental impacts of license renewal are so great that license renewal would be unreasonable

# Ongoing Regulatory Oversight

- Emergency Planning
  - 10 CFR 50.47
- Security
  - 10 CFR Part 73
- Current Safety Performance

operating reactor performance web site:

[http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/BYRO2/byro2\\_chart.html](http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/BYRO2/byro2_chart.html)

## License Renewal Safety Principles

- The ongoing regulatory process is adequate to ensure the safety of all currently operating plants
- The same plant operating rules apply during the renewal term
  - NRC applies additional conditions for aging management

# Safety Review

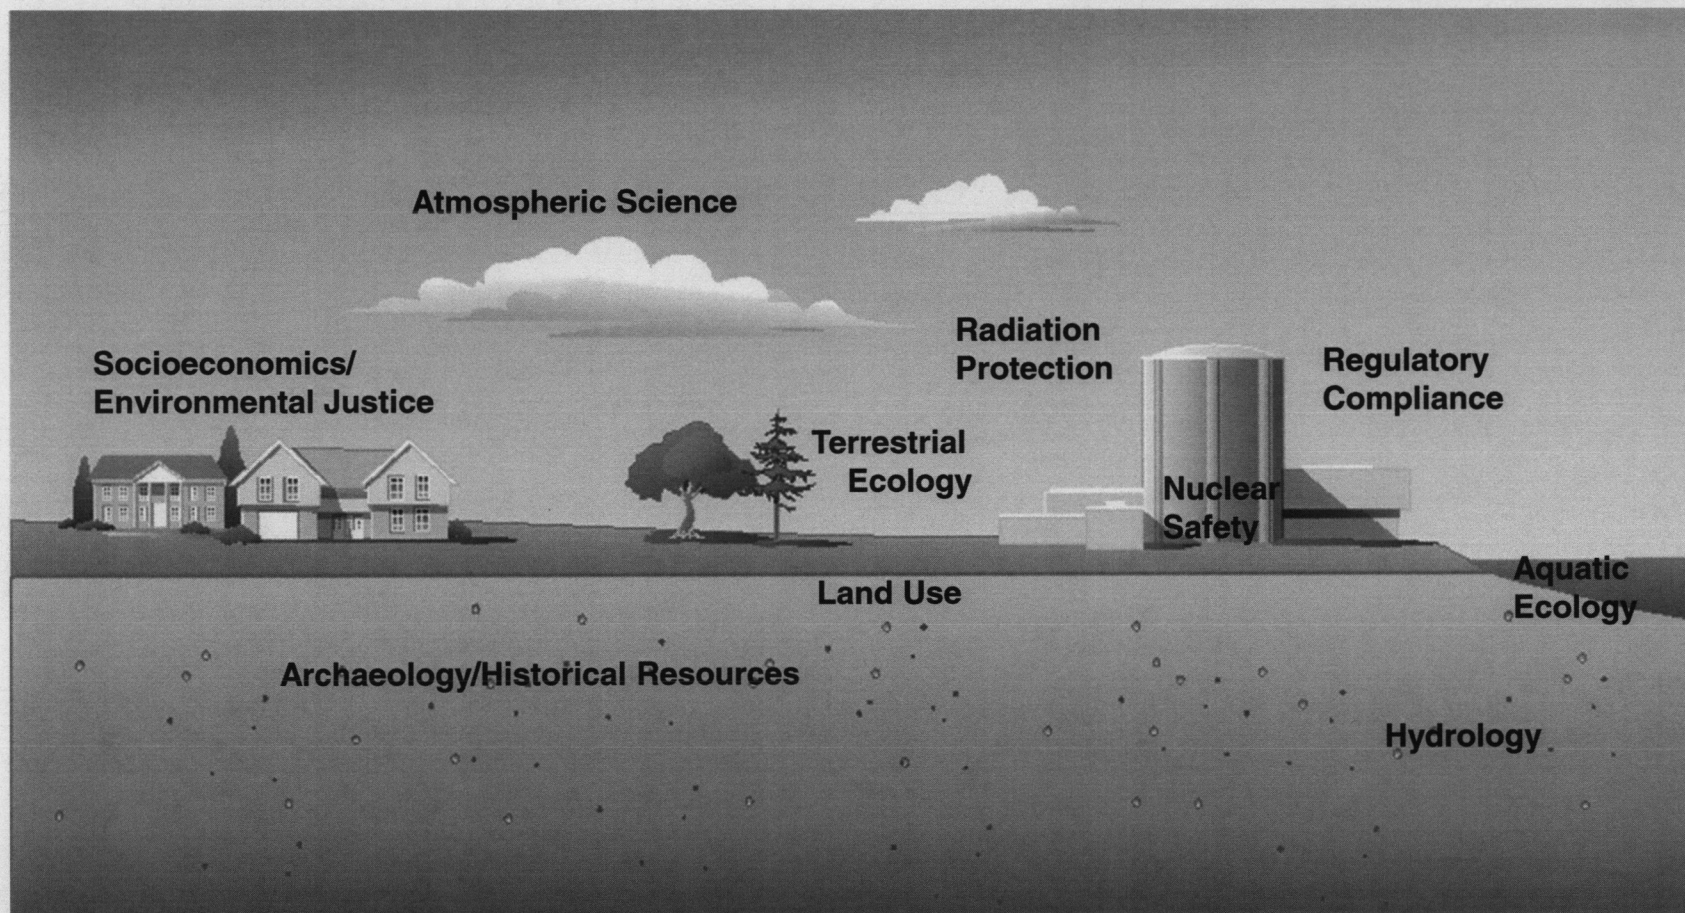

- Safety Review by NRC technical staff
  - Review application and supporting documentation
  - On-site audits
  - Issue Safety Evaluation Report
- On-site inspections by Region III Inspectors
- Independent review by the Advisory Committee on Reactor Safeguards

# Environmental Review

- National Environmental Policy Act (NEPA)
  - Informs Federal decision making
  - Public disclosure of environmental impacts and other considerations
- NRC's Environmental Regulations
  - 10 CFR Part 51
- Staff prepares an Environmental Impact Statement

# Reviewing Areas

# Environmental Impact Statement

## ➤ Staff Evaluates Impacts to Resources

- Wildlife and Fish
- Water and Air Resources
- Historical or Cultural Resources
- Taxes, Community Development, Environmental Justice
- Human Health
- Land Use

# Cumulative Impacts

- Overall impacts to environment including past, present, and reasonable foreseeable future actions
  - evaluated to end of 20-year renewal term
  - geographic boundaries dependent on resource

# Waste Confidence

- NRC Waste Confidence Rule (WC) addresses the environmental impacts of continued storage of spent fuel after the licensed life (including renewal).
- Consistent with the Commission direction, Byron renewed licenses will not be issued until the issues related to waste confidence are appropriately addressed.
- WC Generic Environmental Impact Statement is being developed by the WC directorate, to be completed in 2014.

# Environmental Review Scope

## Scoping Process

- Generic (Programmatic) Environmental Impact Statement (GEIS)
- Site-specific Supplemental Environmental Impact Statement (SEIS)
- New and significant information on generic conclusions reached in the GEIS

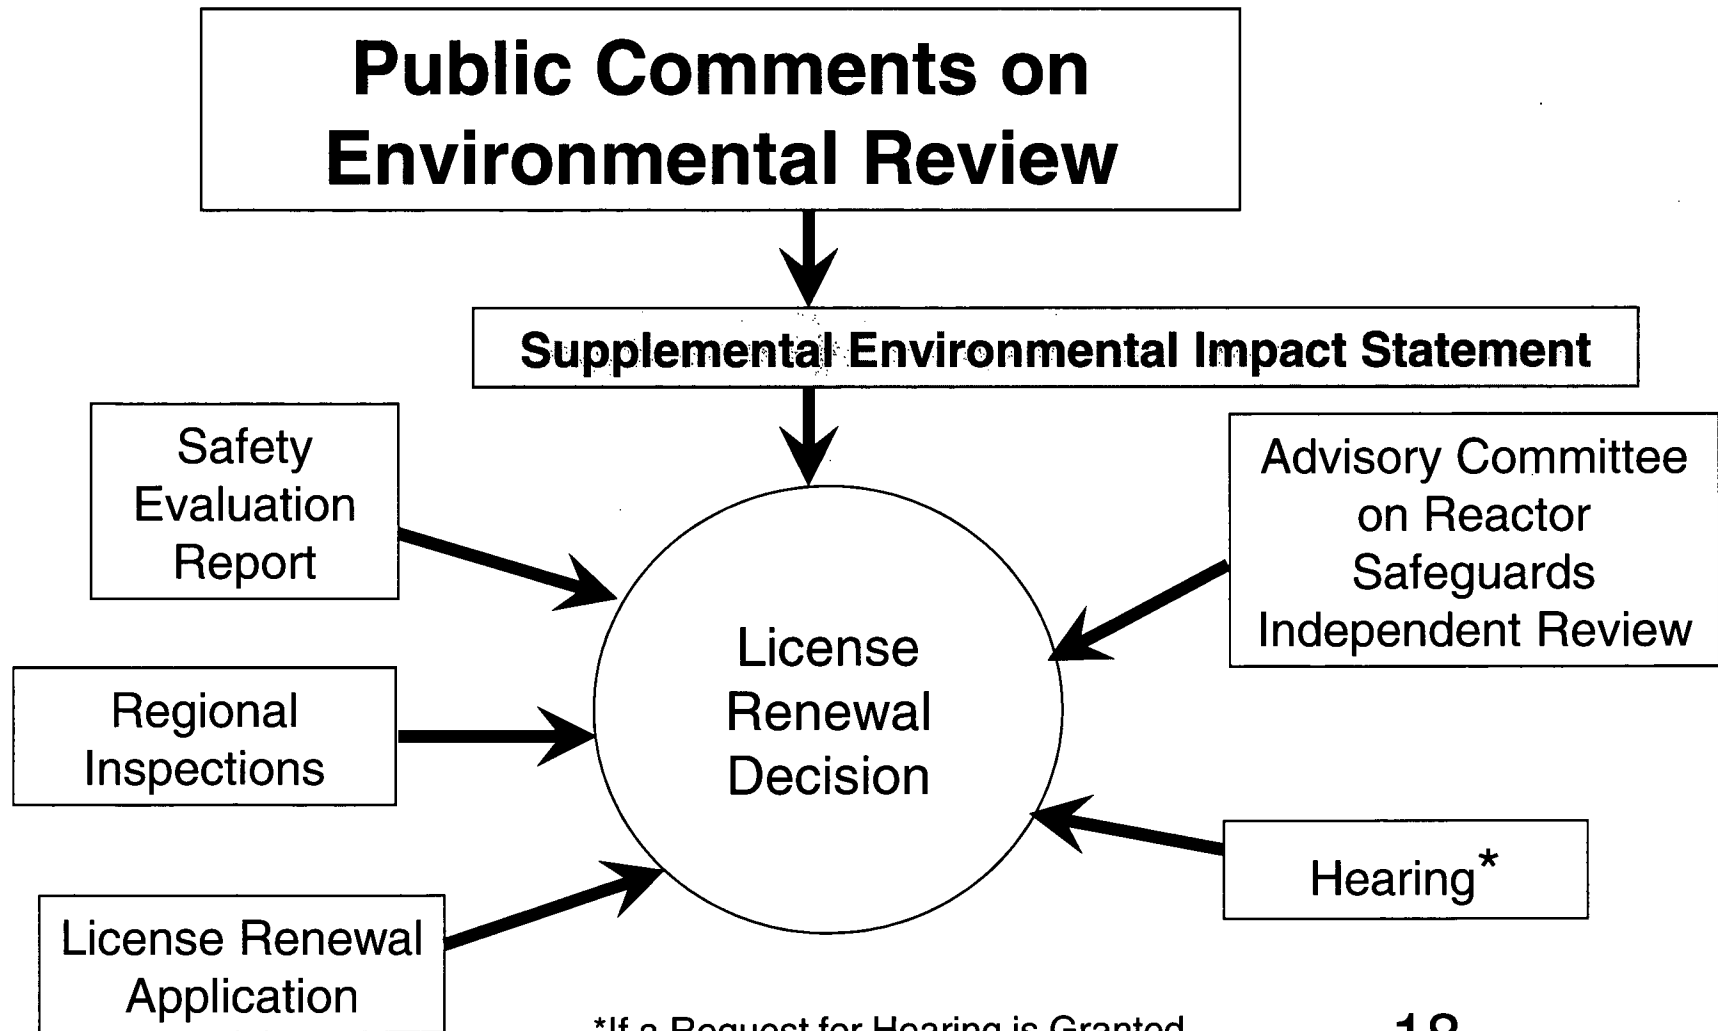

## Scoping and Public Involvement

- What about your community should the NRC focus on in the EIS?
- What local environmental issues should the NRC examine?
- What reasonable alternatives are appropriate for the area?

# Role of Public Comments on Environmental Review

\*If a Request for Hearing is Granted

# Submitting Comments on the Scope of the Environmental Review

## ➤ Provide written comments:

- ✓ By mail: Chief, Rules, Announcements and Directives Branch  
Division of Administrative Services  
Mailstop 3WFN-06A44MP  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555
- ✓ Website: <http://www.regulations.gov>,  
Docket ID NRC-2013-0169
- ✓ In person: 11545 Rockville Pike, Rockville, Maryland

# Environmental Review Milestones

➤ Application Received	May 29, 2013
➤ Notice of Receipt and Availability	June 13, 2013
➤ Notice of Opportunity for Hearing	July 25, 2013
➤ Notice of Intent for Scoping	July 31, 2013
➤ Environmental Scoping Meeting	Aug. 20, 2013
➤ Petition to Request for Hearing Due	Sept. 23, 2013
➤ Scoping Comments Due	Sept. 27, 2013
➤ Draft SEIS Issued	August 2014
➤ Draft SEIS Public Meeting	September 2014
➤ Draft SEIS Comments Due	October 2014
➤ Final SEIS Issued	May 2015

Safety review schedule can be viewed at the NRC site:
