Re: Freedom of Information Act Request

State University of New York – Stony Brook Hospital – Department of Radiation Oncology – Licenses and Authorized User Applications

Dear US NRC:

Please provide the following documents pursuant to the Freedom of Information Act.

All of the following requests pertain to the State University of New York's Stony Brook Hospital in Stony Brook, New York. The time period of interest is 2007-2009, inclusive, or applications and licenses which would be current and operative in that time period.

The issue involved: who was licensed to use or work with radioactive medical devices in the Department of Radiation Oncology at the hospital.

Please provide copies of applications and licenses for training and experience to identify individuals on a license as authorized user, radiation safety officer, authorized medical physicist or authorized nuclear pharmacist for manual brachytherapy sources, ophthalmic use of strontium 90, remote afterloader units, teletherapy units and gamma stereotactic radiosurgery units, and any other radioactive medical devices requiring NRC approval.

We are willing to pay the usual reasonable copying charges for these documents.

Very truly yours,

Michael M. Bast
