ATTN: Mr. John R. Jolicoeur, Mail Stop MNBB-3206

Gentlemen:

Subject: Docket Nos. 50-361 and 50-362
Generic Letter 89-15, "Emergency Response Data System"
San Onofre Nuclear Generating Station
Units 2 and 3

- Reference: A. Letter from Harold B. Ray (SCE) to Document Control Desk (NRC), dated December 26, 1989; Subject: Generic Letter 89-15, Emergency Response Data System, SONGS 1, 2 and 3.
- B. Letter from J. R. Jolicoeur (NRC) to Dr. R. Waldo (SCE) dated February 7, 1990; Subject: ERDC Administrative Information and Data Point Library File.
- C. Letter from F. R. Nandy (SCE) to Document Control Desk (NRC), dated October 29, 1990: Generic Letter 89-15, Emergency Response Data Systems, Units 1, 2 and 3.

Consistent with an NRC request in Generic Letter 89-15, "Emergency Response Data System," Southern California Edison (SCE) volunteered to install an Emergency Response Data System for San Onofre Units 2 and 3 (Reference A). In response to that letter, the NRC requested SCE to provide administrative and data point information that would be necessary for the NRC contractor to design the NRC/Licensee ERDS system interface (Reference B). SCE provided the requested administrative information by Reference C and stated that the data point information would be submitted to the NRC by December 15, 1991. The purpose of this letter is to provide the enclosed ERDS data point library information to the NRC and the NRC Contractor, EI International, Inc.
