Attention: Mr. R. H. Engelken

Gentlemen:

Subject: IE Bulletin 79-25  
Docket No's 50-361 and 50-362  
San Onofre Nuclear Generating Station  
Units 2 and 3

Your letter of November 2, 1979 forwarded IE Bulletin 79-25, "Failures of Westinghouse BFD Relays on Safety Related Systems" and requires licensees and permit holders to determine whether or not such specific relays are in use or planned for use at these respective facilities.

A review by both our NSSS supplier and our architect/engineer has revealed that the subject relays are not used or planned for use at San Onofre Units 2 and 3.

Should you have any questions or require additional clarification, please contact me.

Very truly yours,

*K P Baskin*
