  4. December 18, 1991, Letter from R. M. Rosenblum (SCE) to the Document Control Desk (NRC); Subject: Generic Letter No. 89-13: Service Water System Problems Affecting Safety-Related Equipment, San Onofre Nuclear Generating Station, Unit 2

This letter provides confirmation that Southern California Edison (SCE) has completed implementation of our program developed in response to Generic Letter 89-13 at San Onofre Unit 3. Generic Letter 89-13; "Service Water System Problems Affecting Safety-Related Equipment," dated July 18, 1989, provided recommended actions to address various problems with service water systems which, in the past, have led to system degradation or failure at some plants. The Generic Letter requires licensees to develop programs to ensure that their service water systems are capable of performing in accordance with their licensing bases. Our first submittal, Reference 1 above, provided a description of the program to be implemented at San Onofre Units 1, 2, and 3. The NRC accepted this program by Reference 2.

This letter confirms that our Generic Letter 89-13 program was implemented at Unit 3 during the recent Cycle 6 refueling outage. All initial tests or activities have been completed and continuing programs have been established. As stated in Reference 1, SCE has an ongoing maintenance program. In addition, we have implemented procedures to verify the heat transfer capability of the component cooling water heat exchangers at each unit during refueling outages. The detailed documentation of our program is being retained in appropriate plant records. This letter satisfies the Generic Letter 89-13 reporting requirement to provide written confirmation within 30 days of implementation that all the Generic Letter 89-13 recommended actions or their justified alternatives have been implemented.

Our Generic Letter 89-13 program was implemented at San Onofre Unit 1 during the Cycle 11 refueling outage, as reported in Reference 3, and at San Onofre Unit 2 during the Unit 2 Cycle 6 refueling outage, as stated in Reference 4. If you have any questions, please do not hesitate to call me.

Respectfully submitted,

SOUTHERN CALIFORNIA EDISON COMPANY

R. Ornelas

R. Ornelas  
Plant Licensing Manager

State of California

County of Orange

On 4/24/92 before me, Holly D. Rose,  
personally appeared R. Ornelas, personally known to me to be  
the person whose name is subscribed to the within instrument and acknowledged  
to me that he executed the same in his authorized capacity, and that by his  
signature on the instrument the person, or the entity upon behalf of which  
the person acted, executed the instrument.

WITNESS my hand and official seal.

Signature

Holly D. Rose
