Re: NRC Docket Nos. 50-361-OL
50-362-OL

San Onofre Nuclear Generating Station Units 2 & 3

Gentlemen:

Licensing of the San Onofre Units 2 & 3 must be accomplished just as soon as possible. The cost of delaying the operation of these generating units is becoming increasingly burdensome to the consumers. Every conceivable safety concern that has been raised has been carefully studied and compensated for. It is now time to set aside farther argument by the nuclear opponents who are using safety as a excuse to promote their own ideas of social reform.

Prompt licensing of San Onofre 2 & 3 is essential for the energy production and business incentive in this area.

Thank you for helping to ensure our energy future, and if we can be of assistance in any way, please let us know.

Very truly yours,

Barney Hekkala, Legislative Liaison for SAN DIEGO VOICE OF ENERGY
