Mr. Harold Denton, Director
Office of Nuclear Reaction Regulations
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Denton:

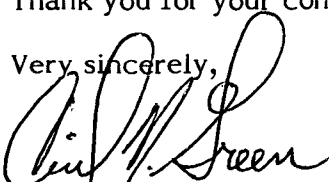

On behalf of my fellow City Council members, may I take this opportunity to strongly support the licensing of San Onofre Nuclear Plant, Units II and III this summer.

It is our understanding that the United States Nuclear Regulatory Commission will be holding public hearings on this matter in July, and we strongly feel that the completion of this long-awaited facility is a major step in achieving an energy-independent America in the years ahead.

We trust that this facility will conform to all health and safety standards in order to insure complete precautions.

Thank you for your consideration in this matter.

Very sincerely,

Cecil N. Green
Mayor
