Re: NRC Docket Nos. 50-361-OL
50-362-OL

San Onofre Nuclear Generating Station Units 2 & 3

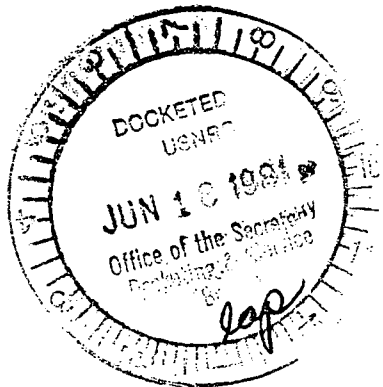

Inasmuch as San Diego County is growing fast, and yet its electric rates are among the highest in the nation, and San Diego Gas & Electric Co. is trying to reduce its consumption of expensive foreign oil, our membership of 380 voted to recommend the prompt licensing of Units 2 & 3 of San Onofre Nuclear Generating Station.

We feel that if the matter were put to a vote, licensing would be approved by an overwhelming majority.

Very truly yours,

Miriam Nichols

Dear Sir

method for producing electricity.

California rate payers are paying \$2 1/2 millions of dollars per day for replacement power! We demand that Diablo Canyon licensing be held up no longer! We want that plant on line as soon as possible! We support your efforts! W.V.

Sincerely
Mr. E. P. ...
