U. S. Nuclear Regulatory Commission  
Office of Public Affairs, Region V  
1990 N. California Blvd.  
Walnut Creek, CA 94596

Gentlemen:

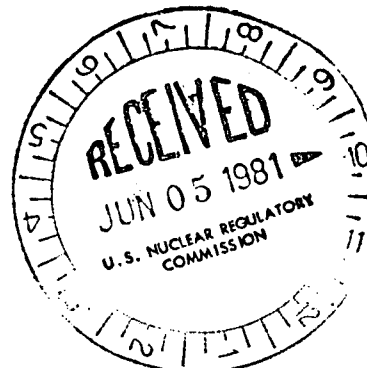

This letter is written to protest the recent action of the City of San Clemente City Council in opposing the pre-licensing of San Onofre Nuclear Generating Station, Units 2 and 3. As citizens of this city, neither my husband nor myself were polled for our views on this subject beforehand. We are both in favor of licensing these new units as quickly as is safely possible and feel that your agency could adequately monitor the situation.

We deplore the political situation in our city that makes this letter necessary, and we felt it was imperative that we be allowed a chance to express our views on nuclear power.

Sincerely,

*John K. Bullington*

DOCKET NUMBER  
PG&E. 3. UNTL. FAD 50-361/362

May 27, 1981

Dr. Joseph Hendrie  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Dr. Hendrie:

Please make every effort to license and put into service immediately the Diablo Nuclear plant of the PG&E.

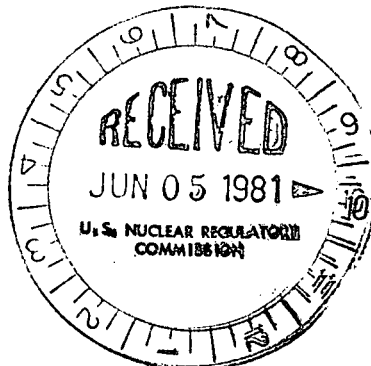

This is costing the customers of PG & E unnecessary millions of dollars to have this plant standing idle.

Yours truly,

A handwritten signature in cursive script, appearing to read "H. D. Pischel".

H. D. Pischel

GENTLEMEN,

THE ONLY CURRENT PRACTICAL  
SOLUTION TO OUR ENERGY PROBLEMS  
IS NUCLEAR ENERGY. I THEREFORE  
URGE RAPID LICENSING OF UNITS  
2 AND 3 AT SAN ONOFRE, CA.

Byron Marshall
