Reference: Docket #50-361-OL

Dear Sirs,

Due to a timing conflict, I shall not be able to testify in person at the Atomic Safety and Licensing Board hearing on the San Onofre generating stations.

If I were present, however, I would urge you to expedite approvals for operation.

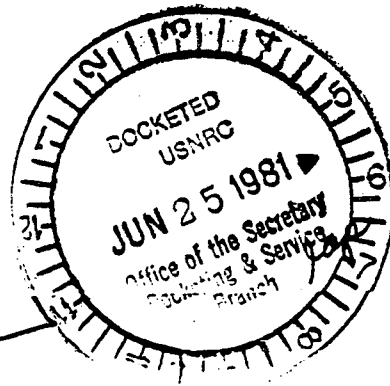

I have been concerned with energy and chemical plant operations for over 30 years. According to my views, electricity from nuclear power plants is the safest and cheapest power available in Southern California. Let's get them going.

Yours truly,

F. A. M. Buck

SONGS 2 and 3

Gentlemen;

I urge the Nuclear Regulatory Commission to issue a license for SONGS 2 and 3 so that these units can start operating as soon as possible.

I am a registered professional engineer in the State of California, I have visited the plants and I am convinced that there are adequate safeguards in the design to protect the environment and all public interests.

Sincerely,

C. E. Hedborg
