Att:
San Onofre Licensing

Dear Sir,

I am opposed to
the licensing of units
2 & 3 ; because, of the
earthquake fault they
are sitting on.

Thank you,

M. A. Murphy

P.S.
Would you want this in
your background?

DOCKET NUMBER
PROD. & UTIL. PAC. 50-361-362

Licensing reactors #2 and #3 at
San Onofre, I feel would be a big
mistake. It jeopardizes 400,000
peoples lives. Beruifiting a few
with the bucks.
Reactor #1, leaked radioactive
material 360 cubic yards and
than discovered (to close for comfort)
a higher risk and chance not
worth taking
If the reactors were switch on
to full steam ahead. Pleasure
would drop to everyday hope
for survival.

U.S geological Survey says, "
it could produce an earthquake
10-times than it is built to
withstand"

What warning enough, Please
think of generations to come
if anything at all.

Thank you!
