NRC - We are opposed to the licensing & operation of the nuclear plant at San Onofre, since the public's safety and welfare have not yet been taken care of. There are still problems with leaky pipes, no workable evacuation plans at all, and the spectre of Three Mile Island looms above us all, at all times.

We ask that San Onofre be de-commissioned, or that at least be held up until more adequate and sincere efforts to insure public safety be thoroughly contemplated. Thank you very much.
