Gentlemen:

Subject: Docket Nos. 50-361 and 50-362  
Component Cooling Water System  
TAC Nos. 71194 and 71195  
San Onofre Nuclear Generating Station  
Units 2 and 3

This letter provides the schedule for submittal of information regarding the Component Cooling Water (CCW) System at San Onofre Units 2 and 3. By letter dated August 14, 1989, the NRC requested additional information as a result of the review of SCE's December 16, 1988 report, Component Cooling Water System Operability Assessment.

As discussed with Mr. Lawrence Kokajko, Project Manager, Project Directorate V, USNRC, additional time is required to complete our review of the draft response. Therefore, this information will be provided by October 31, 1989.

In a related discussion, a copy of the review of CCW non-IE devices, which was discussed in LER 88-034 dated January 16, 1989, was also requested. The report summarizing the review of the CCW non-IE devices is currently being finalized and it will be submitted by November 30, 1989.

If you have any questions regarding this information, please call me.

Very truly yours,

cc: J. B. Martin, Regional Administrator, NRC Region V  
C. Caldwell, NRC Senior Resident Inspector, San Onofre  
Units 1, 2 and 3
