Dear Commissioners,  
I am strongly opposed to  
the licensing of San Onofre  
Unit 2. There are already  
so many problems there -  
I fear the day it goes nuclear.  
Please do not give it a low power  
testing license which allows  
SCE & BGE to bypass new  
TMI modifications & evacuation  
laws. Please do notify me of any  
public hearings on this issue & also  
any change in procedure. Thanks
