Mr. Harold Denton, Director
Office of Nuclear Reactor Regulations
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

As a public private concern which uses electric energy in providing a vital service to the community, we must pass these costs on to our customers. As such, we wish to express our support for the operation of the San Onofre Nuclear Generating Station, Units 1, 2, and 3.

We are vitally concerned that the economic, environmental, and social well-being of the State of California be maintained, and an adequate supply of energy is critical in meeting these concerns. We also feel there must be a strong commitment to conservation of the nation's limited resources and development of efficient and secure new sources of energy.

We strongly urge that you proceed with the timely processing of the operation licenses for the San Onofre Nuclear Generating Station, Units 2 and 3.

Sincerely

Dan D. Sisemore
President
