RESOLUTION

WHEREAS, ~~Delano Chamber of Commerce~~ is vitally concerned that the economic, environmental and social well-being of the State of California be maintained; and

WHEREAS, an adequate supply of energy is critical to meeting California's economic and social needs while preserving the environmental gains of the past decade; and

WHEREAS, this nation's continued overdependence on foreign oil has caused major adverse economic impacts; and

WHEREAS, there is a probability that instability in the Middle East will, at some near future time, result in reduced supplies of oil, thereby causing further social and economic chaos here at home, and

WHEREAS, there must be a strong commitment to conservation of the nation's limited resources and development of efficient and secure new sources of energy here at home, and

WHEREAS, regulatory delays in the planning and licensing of needed energy facilities are costly to the consumer, damaging to the environment, and result in greater importation of foreign oil;

NOW, THEREFORE, BE IT RESOLVED, that Delano Chamber of Commerce supports

1. licensing San Onofre Units II and III nuclear power plants
2. developing alternative forms of energy such as, solar, geothermal and wind
3. a continued commitment to conservation of our energy resources

PASSED AND ADOPTED by Delano Chamber of Commerce of Delano State of California, at a regular meeting thereof this 19 day of August, 1981 by the following votes:

AYES: 10

NOES: 1

ABSENT: 4
