RESOLUTION

- WHEREAS, Ventura County Economic Development Association is vitally concerned that the economic environmental and social well-being of the State of California be maintained; and
- WHEREAS, an adequate supply of energy is critical to meeting California's economic and social needs while preserving the environmental gains of the past decade; and
- WHEREAS, this nation's continued overdependence on foreign oil has caused major adverse economic impacts; and
- WHEREAS, there is a probability that instability in the Middle East will, at some near future time, result in reduced supplies of oil, thereby causing further social and economic chaos here at home, and
- WHEREAS, there must be a strong commitment to conservation of the nation's limited resources and development of efficient and secure new sources of energy here at home; and
- WHEREAS, regulatory delays in the planning and licensing of needed energy facilities are costly to the consumer, damaging to the environment, and result in greater importation of foreign oil;

NOW, THEREFORE, BE IT RESOLVED, that Ventura County Economic Development Association supports:

1. licensing San Onofre Units II and III nuclear power plants
2. developing alternative forms of energy such as, solar, geothermal and wind
3. a continued commitment to conservation of our energy resources
