FOOTHILL MUNICIPAL WATER DISTRICT
ALTADENA • La CANADA FLINTRIDGE • La CRESCENTA

June 22, 1981

Mr. Harold Denton
Director's Office of Nuclear
Reactor Regulations
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

Attached is a copy of Resolution No. 417, unanimously adopted by the Board of Directors of the Foothill Municipal Water District at its regular meeting of June 17, 1981. Said Resolution cites the need for various measures necessary to assure an adequate, reliable, and economical supply of electrical energy and, in particular, strongly urges the U. S. Nuclear Regulatory Commission to license the Southern California Edison Company's San Onofre Nuclear Power Plant Units II and III.

The Board of Directors of this District feels that licensing of San Onofre Units II and III at the earliest possible date is essential to provide some measure of assurance that sufficient electrical energy will be available to meet the needs of the residents of this District as well as the residents of the entire State of California.

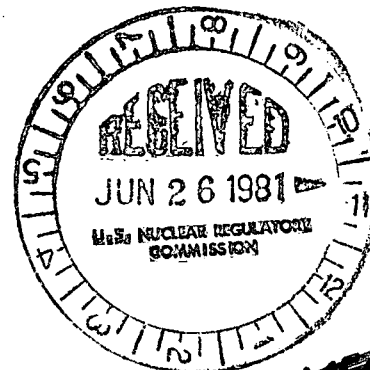

Very Truly Yours,

Foothill Municipal Water District

Ronald C. Palmer

RESOLUTION NO. 417

A RESOLUTION OF THE BOARD OF DIRECTORS
OF THE FOOTHILL MUNICIPAL WATER DISTRICT

WHEREAS, the Foothill Municipal Water District is responsible for delivering an adequate, reliable, and economical supply of water to the constituents of the District; and

WHEREAS, the Foothill Municipal Water District is heavily dependent upon the availability of an adequate, reliable, and economical supply of electrical energy to deliver water to the constituents of the District; and

WHEREAS, the Foothill Municipal Water District is vitally concerned that the economic, environmental and social well-being of its constituents and the residents of the State of California as a whole be maintained; and

WHEREAS, an adequate supply of energy is critical to meeting California's economic and social needs while preserving the environmental gains of the past decade; and

WHEREAS, this nation's continued overdependence on foreign oil has caused major adverse economic impacts; and

WHEREAS, there is a probability that instability in the Middle East will, at some near future time, result in reduced supplies of oil, thereby causing further social and economic chaos here at home; and

WHEREAS, there must be a strong commitment to conservation of the nation's limited resources and development of efficient and secure new sources of energy here at home; and

WHEREAS, regulatory delays in the planning and licensing of needed energy facilities are costly to the consumer, damaging to the environment, and result in greater importation of foreign oil;

NOW THEREFORE, BE IT RESOLVED, that the Foothill Municipal Water District supports the licensing of San Onofre Nuclear Power Plant Units II and III, at the earliest possible date; and

BE IT FURTHER RESOLVED, that the Foothill Municipal Water District supports developing alternative forms of energy such as solar, geothermal and wind; and

BE IT FURTHER RESOLVED, that the Foothill Municipal Water District supports a continued commitment to conservation of our energy resources.
