Mr. Ladin Delaney, Executive Officer
California Regional Water Quality Control Board
San Diego Region
9771 Clairemont Mesa Boulevard, Suite B
San Diego, California 92124-1331

Dear Mr. Delaney:

Subject: NPDES Monitoring Report
San Onofre Nuclear Generating Station, Unit 2

The SONGS monitoring report covering the month of July is submitted in accordance with the requirements of CRWQCB Order 85-11 (NPDES Permit No. CA0108073). A summary of the generating unit's status and significant analytical results is provided below.

The unit was in operation during July. All sampled water sources were found to be within permit limits, except the low volume waste discharge from blowdown processing. This discharge was high on total suspended solids.

Pursuant to Order No. 85-11, Reporting Requirement 12, your letter dated June 25, 1985, authorizes the following representative to sign and certify all reports required by this order: Arthur Kneisel, Environmental Engineer.

I certify under penalty of law that I have personally examined and am familiar with the information submitted in the attached document, and based on my inquiry of those individuals immediately responsible for obtaining the information, I believe the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

Sincerely,

B. Katz
Manager, Operations and Maintenance Support
